SUMMARY

Entry-level web developer with 1 year of experience in JavaScript, HTML5, Tailwind CSS and React. Proven ability to create reusable components for an enterprise-level web application. Passionate about technology and building scalable web solutions.

EXPERIENCE

FrontEnd Web Developer

As a Freelancer
October 2024 – December 2024, Freelancer

· Architected and developed a robust, data-driven platform designed to track, analyze, and visualize brand performance across multiple industries, enabling data-informed decision-making.

· Engineered an intuitive, fully responsive user interface using React.js, ensuring optimal usability and a seamless experience across various devices and screen resolutions.

· Designed and implemented interactive dashboards with real-time trend analytics, dynamic brand comparison tools, and secure user authentication, enhancing user engagement and platform functionality.

· Optimized front-end performance and codebase scalability through modular design principles, efficient state management, and reusable component architecture.

PROJECT

XORA SaaS Landing Page

xora-saas-landing-page-xi.vercel.app/ · March 2025 – March 2025

· Built using React.js with a modular component architecture, ensuring scalability, code reusability, and ease of future updates or feature integrations.

· Implemented a fully responsive layout using Tailwind CSS, delivering a consistent and professional design across all screen sizes and devices.

· Focused on clean UI/UX principles to create a visually engaging interface that highlights core product benefits, user testimonials, and CTAs effectively.

iPhone Web Clone

apple–iphone–clone–six.vercel.app/ · February 2025 – February 2025

· Utilized React.js to build a fully responsive, component-based architecture that replicates the original site's layout, animations, and user experience.
· Integrated GSAP (GreenSock Animation Platform) to create smooth, visually appealing transitions and interactive elements throughout the page.
· Applied Tailwind CSS to deliver a modern, scalable, and consistent design system across all screen sizes, ensuring fast rendering and maintainability.

Doctor Appointment Panel

doctor-appointment-panel-ui.vercel.app/ · November 2024 – February 2025

· Created a clean, modern, and consistent user interface in alignment with medical industry standards, incorporating key components such as overview cards, appointment lists, patient management panels, and calendar views.
· Prioritized clarity, accessibility, and ease of use for healthcare administrators by designing intuitive layouts and building modular, reusable components to support long-term scalability.
· Ensured full responsiveness across all devices and screen sizes, optimizing for fast rendering, minimal load times, and seamless performance in clinical environments.

EDUCATION

Diploma In Mern Stack Development

Saylani Mass IT Training · Karachi, Pakistan · 2024

· Developed dynamic, data-driven web applications using React.js for front-end and Node.js/Express.js for back-end, implementing real-world project requirements. Click here to check certificate

SKILLS

Software : Node.js, MongoDB, HTML5, CSS, React.JS, Next.JS, Tailwind CSS, TypeScript, JavaScript

version: 3.5.0-9942210f
